S3 Organization Canvas

The S3 Organization Canvas is a tool for exploring new business models or product ideas, or for communicating existing ones. Sections are numbered to indicate the suggested order of moving through the canvas. For new business models or products, it's a good idea to create several canvases, which each explore different tangents, and then integrate the best ideas into a smaller set of canvases. Those can then be tested through pretotyping or other means of interacting with (potential) customers.

Ригроѕе	Core Values Legal Status and Owners		Essential Constraints	
What is the overall purpose the organization exists to fulfill? Describe the primary driver and main requirement the members of the organization strive to fulfill.	What are the fundamental principles that guide how members of the organization interact with each other and with the outside world?	What is the legal status of the organization? Who are the shareholders, if any?	What significant internal or external constraints limit people's autonomy to decide and act in the organization?	
Key Deliverables	Customer Segment	Unique Value Proposition	Sales and Marketing Strategy	
What does your organization provide to achieve its purpose? Describe the top three deliverables	Considering the organization's purpose, who are your ideal customers?	What is unique about your organization that will convince potential customers and partners to choose your organization over others?	How do you reach and engage prospective customers, and how do you provide and deliver your products and services to them?	
(products, services, components or materials).		Key Challenges	Key Partners	
	Early Adopters Which initial customers can help you discover whether your organization is fulfilling its purpose effectively?	What important challenges (risks, vulnerabilities, uncertainties, etc) are you aware of that could impede the organization's ability to fulfill its purpose effectively?	Who can provide essential products, services or support to your organization? What might you outsource or buy?
